# Revive™

Revive™ your sleep, reclaim  
your day—bedding designed  
for active lives.

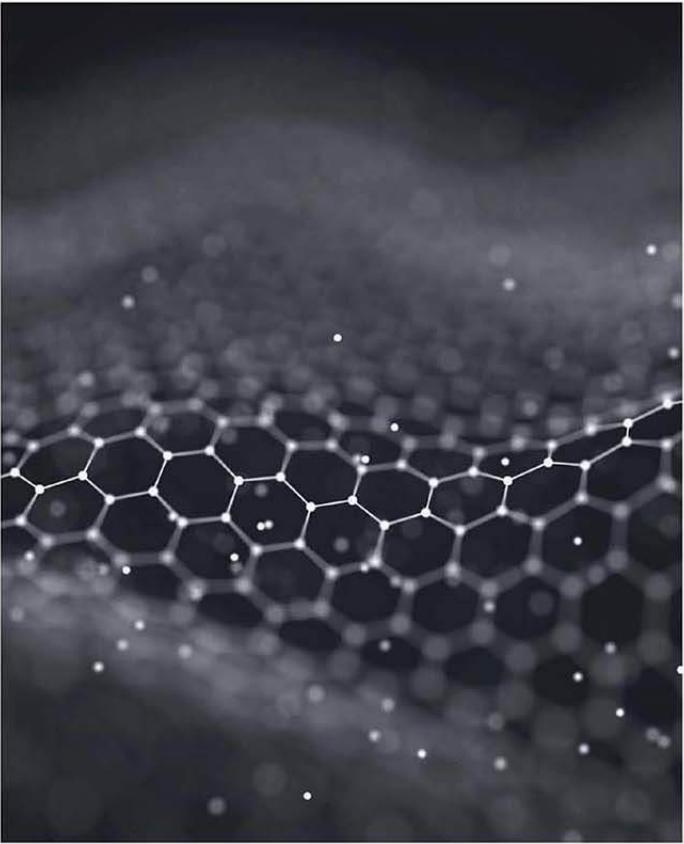

### AirFeel™ Memory Foam

AirFeel™ Memory Foam is a breakthrough in sleep technology, delivering stable, balanced support no matter the climate. This patented, thermo-adaptive memory foam ensures a consistent feel in any room temperature while providing targeted pressure relief to soothe tired muscles.

In mattresses, AirFeel™ Memory Foam offers soft, deep contouring for a plush, cloud-like experience, gently cradling your body. It also minimizes motion transfer, ensuring that both you and your partner enjoy uninterrupted, restful sleep.

For select pillows in the Revive™ range, AirFeel™ Memory Foam is enhanced with micro-perforation, allowing for improved breathability and airflow. This innovative feature helps reduce moisture build-up, keeping you cool and dry throughout the night. The perforation also ensures greater flexibility of the foam, so it adjusts more naturally to your movements, offering continuous comfort as you sleep.

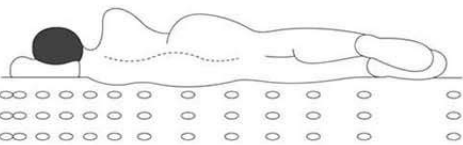

### Graphene Covers

Graphene covers, crafted from premium double jacquard knit fabric, are engineered for active lifestyles and quality sleep. Infused with graphene, one of the strongest and thinnest materials, they offer antibacterial and anti-dust mite protection for a cleaner, healthier sleep environment.

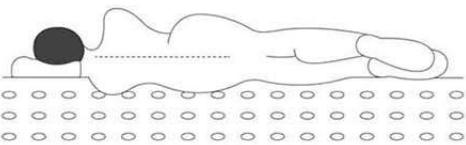

Graphene covers promote blood circulation through far-infrared emission, accelerating recovery and relieving muscle soreness. Their anti-static properties reduce sleep disturbances, while anion release neutralises airborne pollutants, ensuring a fresher, more restful night's sleep.

### Conventional Memory Foam

**Different feel depending on temperature**  
Firmer in the cold, softer in the warmth, leading to inconsistent comfort.

### AirFeel™ Memory Foam

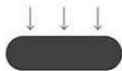

**Featuring thermo-adaptive technology**  
Maintains perfect support and comfort, no matter the temperature, for consistently restful sleep.

**Durable and Long-Lasting**  
Resists wear and tear, keeps bedding in top shape, even with frequent use and washing.

**Fade-Resistant**  
Blocks UV rays, keeping bedding vibrant and intact longer.

**Strong and Snug Fit**  
Maintains its shape, preventing sagging and ensuring a secure, smooth fit on your mattress.

**Cool and Comfortable**  
Dissipates heat for a refreshing, cool sleep—perfect for hot climates.

## [Classic Pillow]

The Classic Pillow offers the perfect blend of support and comfort, molding to your head and neck for complete muscle relaxation. Its versatile design suits all sleepers, adapting to any position for a consistent and restful sleep every night.

Perfect for Sleeper

-  Back
-  Side
-  Stomach

Features  
Traditional Comfort

Size 60 × 40 × 14cm

## [Ergo Pillow]

Built for side sleepers, the Ergo Pillow promotes proper spine alignment and improves blood circulation. Its gentle slope evenly distributes pressure, providing relief from neck stiffness and shoulder pain, delivering deep, restorative sleep. Simply flip the pillow over for a more traditional feel, on nights you don't feel like sleeping on your side.

Perfect for Sleeper

-  Side

Features  
Dual-Sided Comfort

Size 60 × 40 × 14cm

## [Contour Pillow]

Prioritising posture, the Contour Pillow cradles your head and neck with ergonomic support. Its contoured shape promotes proper alignment, easing neck and shoulder pain, making it perfect for back and side sleepers seeking targeted comfort.

Perfect for Sleeper

-  Back
-  Side

Features  
Ergonomic Support

Size 60 × 40 × 12/10cm

## [Adjustable Pillow]

Tailor your sleep with the Adjustable Pillow, featuring removable AirFeel™ Memory Foam blend filling. Adjust the loft and firmness to match your comfort needs, whether you prefer a firm or soft pillow. Perfect for those who like to tweak their sleep setup until it's just right.

# [Elite Mattress]

The Elite Mattress is a luxurious sleep experience tailored for those who crave softness and gentle support.

Its top layer featuring 5cm of gel-infused AirFeel™ Memory Foam offers a consistent, cloud-like feel no matter the room temperature, while the 5cm cooling feel layer regulated your body heat, ensuring you sleep comfortably all night long. Finally, finishing off with a base layer of support foam, the Elite Mattress cradles your body, reducing pressure on your hips and shoulders, while minimising motion trasfer for undisturbed sleep.

Elite Mattress is perfect for those who value a plush, indulgent sleeping surface that promotes deep relaxation and rejuvenation.

Elevate your sleep with the Revive Topper, an extra later of cushioning designed to transform your mattress into a haven of comfort.

The 5cm layer of gel-infused AirFeel™ Memory Foam offers enhanced spinal alignment and pressure relief, making even a firm mattress feel luxurious. Encased with a graphene cover and featuring a stylish grey airy mesh border, this topper adds both style and substance to your bed. With a non-slip base and zipper cover, it stays securely in place, ensuring that your enhanced comfort is uninterrupted.

Revive Topper is perfect for those looking to upgrade their current mattress without replacing in entirely.

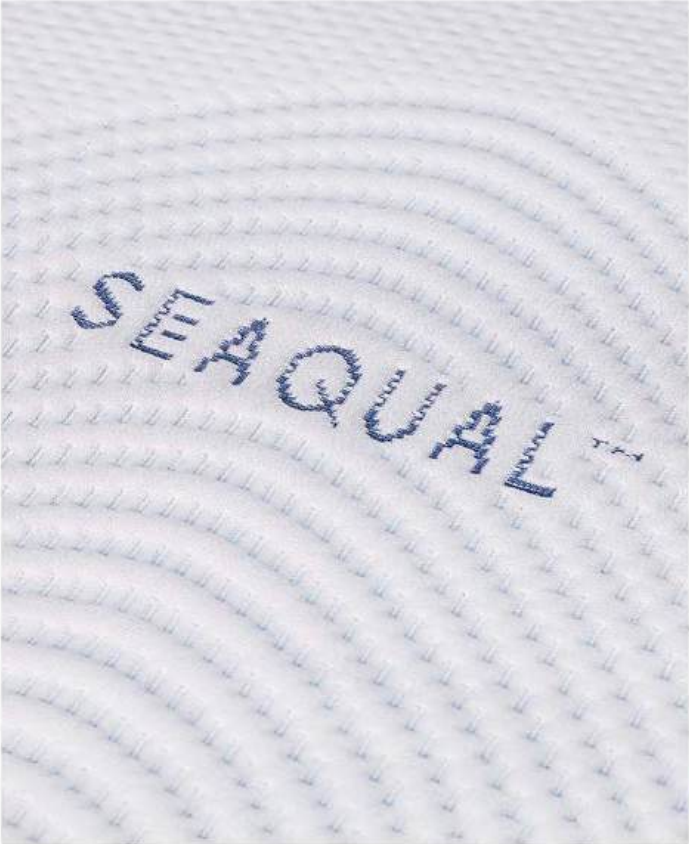

Oxygel™

### Cooling Gel Pad Memory Foam

The cooling gel pad memory foam is a core element of our Oxygel™ range, expertly merging cooling innovation with plush comfort. The gel layer effectively dissipates heat, creating a cool-to-the-touch surface that keeps you refreshed all night. With advanced temperature regulation, it prevents overheating and minimises night sweats. Beyond cooling benefits, the memory foam contours to your body, relieving pressure points and providing superior support for a more restful sleep. This innovative blend ensures a cool, comfortable, and deeply restorative sleep experience.

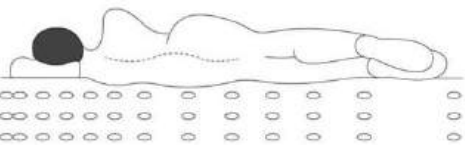

### Seaqual® + Tencel Fibre

Oxygel™ features the Seaqual® + Tencel blend, where eco-conscious innovation meets unmatched comfort. Seaqual®, crafted from upcycled marine plastics, supports ocean cleanup efforts while offering exceptional breathability and softness. Paired with Tencel, sourced from sustainably harvested wood fibres, this blend excels in moisture-wicking, keeping you dry and comfortable throughout the night. This fabric is gentle on sensitive skin, luxuriously soft, and durable, reflecting a commitment to both premium quality and environmental sustainability. Perfect for those who seek luxurious bedding with a sustainable edge.

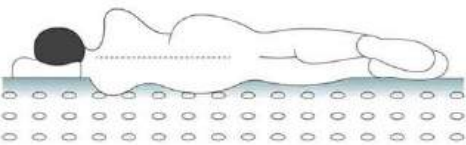

SEAQUAL  
INITIATIVE

### Conventional Memory Foam

Adapts to your body but can trap heat, making it less ideal for those who sleep warm.

### Cooling Gel Pad Memory Foam

Combines contouring comfort with a cool-to-the-touch surface, helping regulate temperature and reduce overheating.

**Eco-Friendly Comfort**  
Upcycled and sustainably sourced materials for responsibly luxurious comfort.

**Breathable Softness**  
Exceptional breathability and a soft, gentle touch.

**Moisture-Wicking Efficiency**  
Stay dry and comfortable all night.

**Gentle and Durable**  
Ideal for sensitive skin, offering luxurious softness and durability.

Domo™

### Suprelle® Fusion

At the heart of the Domo Collection lies Suprelle® Fusion—a revolutionary blend of premium natural white goose down and cocoon fibre, an advanced down-like material engineered by ADVANSA, a renowned German company celebrated for its sustainable and innovative polyesterfibre solutions. This exceptional fill merges the plush softness and warmth of traditional down with superior breathability, moisture management, and lasting loft.

Crafted with eco-conscious technology, Suprelle® Fusion ensures luxurious comfort and effortless care. Lightweight, machine washable and resilient, it retains its shape and performance over time, ensuring consistent support and indulgent softness for restful nights.

Experience the perfect balance of luxury and functionality with Suprelle® Fusion, redefining the art of luxurious sleep.

### Lavender-Infused Memory Foam

Drift into a world of serenity with our lavender-infused memory foam. Infused with the soothing essence of lavender, renowned for its calming and stress-relieving properties, this foam transforms your sleep into a deeply restorative escape. Designed to adapt to your head and neck, it provides personalised support that alleviates pressure points, while micro-perforations enhance breathability for a cool, tranquil rest.

A touch of nature's most relaxing scent meets luxurious comfort, ensuring you wake up refreshed, recharged, and ready to embrace the day.

### Conventional Fibre

Offers basic comfort and support. Lack breathability, tends to flatten over time, and requires frequent fluffing to maintain its shape and loft

### Suprelle® Fusion Fibrefill

Premium blend of natural down and advanced polyester fibres. It delivers superior softness, enhanced breathability, and long-lasting loft while being machine washable.

**Relaxing Lavender Aroma**  
Let the soothing lavender scent ease your mind and lull you into serene sleep.

**Cooler, Fresher Sleep**  
Micro-perforations enhance airflow, keeping you cool and refreshed throughout the night.

**Tailored Comfort and Support**  
High-density memory foam cradles your head and neck, relieving pressure points effortlessly.

**Allergen-Free Comfort**  
Naturally resistant to allergens, for a cleaner, healthier sleep every night.

## [Adjustable Classic Pillow]

#### STANDARD 100

##### OEKO-TEX® Standard 100

One of the most trusted certifications for textiles, it ensures that every component of the product has been tested for harmful substances and meets strict safety standards. Products with this certification are free from chemicals that pose risks to human health, guaranteeing safety for even the most sensitive skin, making it ideal for bedding and pillows used by everyone, including babies and individuals with allergies.

##### CertiPUR-US®

A health and safety benchmark for foam materials, CertiPUR-US® certification ensures that the foam used in bedding products meets rigorous standards for durability, emissions, and content. Certified foam is made without harmful substances like formaldehyde, heavy metals, ozone depleters, or regulated phthalates. Additionally, it has low VOC (Volatile Organic Compounds) emissions, promoting better indoor air quality and ensuring safer, cleaner sleep environments.

##### Better Cotton™

A globally recognised certification that promotes sustainable cotton farming practices, Better Cotton™ ensures responsible water usage, reduced environmental impact, and improved livelihoods for farmers. Fabrics made with Better Cotton™ offer luxurious softness and durability while supporting a more sustainable and ethical future, making them a conscious choice for everyday comfort.
